To Whom It May Concern:

If anyone should know the quality of the Northern Light Theatre Production of SOMETHING WICKED THIS WAY COMES it is I, the author of the original work. The Northern Light Theatre people have managed to produce a miracle of acting, dancing, singing, of music and light and sound that stunned me in place. I came doubtfully to their theatre more than a year ago and stayed to applaud and congratulate. It is one of the finest productions of any of my works anywhere at anytime. I can only hope for a series of travels on TOUR for this remarkable group. I would hope to attend some of their openings so I can marvel all over again at what they can accomplish. Yours,

*Ray Bradbury*
